**Subject:** Re: FRB

Cynthia:

Many thanks for doing this. I think that the letter segments you have identified are fine. They capture how some of the faculty think about Ben's behaviors. I think that the FRB should see this evidence. I know that they have interviewed some of the faculty quoted. But their letters could also be valuable.

Separate from this, thank you for your thoughtful note yesterday. I hope you get admitted to program at Northeastern. And it has been a pleasure working with you.

Best

P
